Export Opportunity - Supply Chain €60bn

The biggest supply chain market for offshore wind in the world is on our backdoor in the Irish Sea Zone, a supply chain opportunity of over €60bn.

Offshore Windfarm Developments in the Irish Sea					
	Location/Name	Status	Capacity MW's	No. of Turbines	Developer
Round 1			660		
1	North Hoyle	Operating (Dec 2003)	60	30	RWE-npower renewables
2	Barrow	Operating (Sept 2006)	90	30	Centrica/DONG Energy
3	Rhyl Flats	Operating (Dec 2009)	90	25	RWE-npower renewables
4	Burbo Bank	Operational (Oct 2007)	90	25	DONG Energy
5	Ormonde	Approved	150	30	Vattenfall
6	Robin Rigg	Under Construction	180	60	E.ON UK Renewables
Round 2			1620		
7	Walney	Construction 2010-2012	370	102	DONG Energy
8	Gwynnt y Mor	Approved	750	250	RWE-npower renewables
9	West Duddon	Approved	500	139	ScottishPower / DONG Energy
Round 1&2 Extensions			984		
10	Burbo Bank	Pre application investigations	234	65	DONG Energy
11	Walney	Pre application investigations	750	150	DONG Energy
Round 3			5500		
12	Irish Sea Zone	Pre application investigations	4000	800	Centrica/RES Group
13	Bristol Channel	Pre application investigations	1500	300	RWE-Npower Renewables
Western Scottish Territorial Waters			3138		
14	Solway Firth	Pre application investigations	300	60	E.ON Renewables UK
15	Wigtown Bay	Pre application investigations	280	56	Dong Wind (UK) Ltd
16	Kintyre	Pre application investigations	378	76	SSE Renewables
17	Islay	Pre application investigations	680	136	SSE Renewables
18	Argyll Array	Pre application investigations	1500	300	Scottish Power Renewables
NI Territorial Waters 600 to 900 MW expected to be developed on completion of SEA					
19	TBC	TBC	750	150	TBC
Irish Territorial Waters			2680		
20	Oriel Windfarm	Approval Pending - Gate 3	330	55	Oriel Windfarm
21	Dublin Array	Application submitted - Gate 3	725	175	Saorgus Energy
22	Codling Wind Park 1	Approved - non Gate 3	1100	220	Fred Olsen /Treasury Holdings
23	Arklow Bank	Approved - non Gate 3	525	200	SSE Renewables
Further Irish sea Capacity			4000		
			800		
Irish Sea totals			19,368 MW		4200 turbines
Circa €60bn					

Offshore Resources in Irish Waters

- Ireland potentially has the best offshore wind resource in the world.
- Ireland has 10 times its land mass in territorial waters.
- 2680 MW in planning. A further 5000 MW feasible within Irish Sea Zone, including 600MW in Northern Irish Waters
- The potential in Atlantic Waters off the South and West is unlimited when turbine technology develops, i.e. Floating turbines, co-location. .

Job Opportunities – EWEA Predictions

170,000 offshore wind jobs in the EU by 2020

300,000 offshore wind jobs in the EU by 2030

Elements of the Supply Chain

Belfast Port

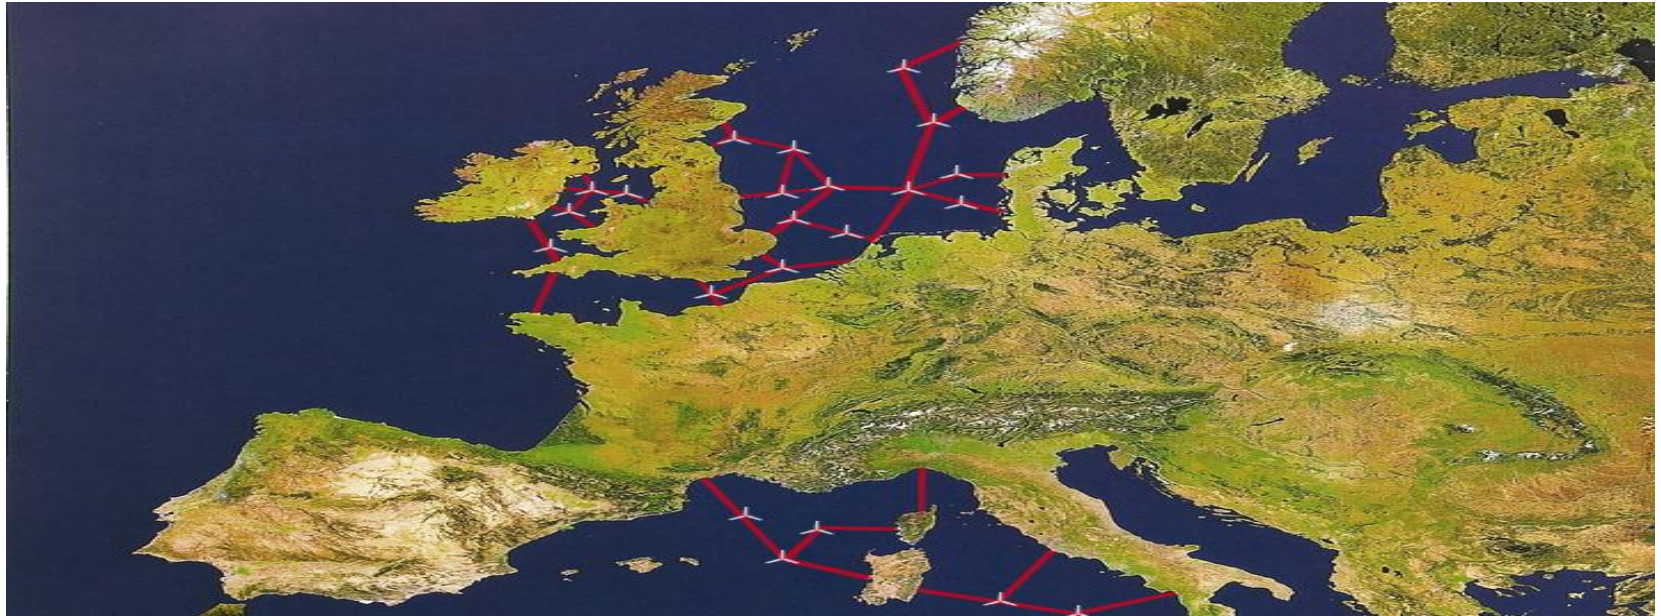

The Challenges Ahead

- Certainty, Certainty, Certainty
- Bringing down the cost of the supply chain
- Implications of back loading of development

The (r)Evolution of European Energy

Co – operation is Key

Delivering on our Opportunity

- Working together – A Win Win.
- Look beyond our shores for the opportunity which exists
- Ensure our European and National policies support our industry objectives.
- Be the leaders of the change Europe wants and needs
