Sustainable Energy for All

Gill Tudor
Chief, Communication and Outreach
Sustainable Energy for All Initiative (SE4All)

15th Inter-Parliamentary Meeting
On Renewable Energy and Energy Efficiency
Vienna, 13 March 2015
1. Eradicate extreme poverty and hunger
2. Achieve universal primary education
3. Promote gender equality and empower women
4. Reduce child mortality
5. Improve maternal health
6. Combat HIV/AIDS, malaria and other diseases
7. Ensure environmental sustainability
8. Global partnership for development
• “Energy is the golden thread that connects economic growth, increased social equity and an environment that allows the world to thrive.”
  -- UN Secretary-General Ban Ki-moon

• “Ending poverty and ensuring sustainability are the defining challenges of our time. Energy is central to both.”
  -- Jim Yong Kim - World Bank Group President
Sustainable Energy for All by 2030

- Ensuring universal access to modern energy services.
- Doubling the global rate of improvement in energy efficiency.
- Doubling the share of renewable energy in the global energy mix.
Post-2015 Development Agenda

SDG 7: Ensure access to affordable, reliable, sustainable and modern energy for all

7.1 By 2030, ensure universal access to affordable, reliable and modern energy services

7.2 By 2030, increase substantially the share of renewable energy in the global energy mix

7.3 By 2030, double the global rate of improvement in energy efficiency
100+ countries have partnered with SE4ALL, with 85 of them being developing countries.

30 SE4ALL focus countries in the first phase, with country action happening in many more.

100/100/100+

Central and local governments/companies/financiers being mobilized to drive the SE4ALL Global Energy Efficiency Accelerator Platform towards the UN Climate Change Conference in 2015.
1 BILLION+

People expected to gain sustainable energy from sustainable energy for all (SE4All) partner commitments made at and since the United Nations Conference on Sustainable Development (Rio+20)

$300 BILLION+

Committed to sustainable energy for all during and since Rio+20

$70 BILLION+

Of Rio+20 commitments already invested in sustainable energy for all

90 million+

People have so far gained access to sustainable energy from Rio+20 commitments
Energy efficiency

Energy access

Renewable energy

- Clearly articulated global vision and objectives
- Unparalleled convening power
- Capacity to leverage large-scale investments
- Rapidly growing network of all stakeholders - governments, businesses, civil society at all levels
- Unmatched ability to mobilize best practices and innovative solutions through a vast network of partners
- Collective action to remove barriers that can not be overcome by single actor
