The Clean Energy Package – What's in for Renewables in Electricity?

Vienna, EUFORES IPM, 19th October 2018
Michaela Holl, DG ENERGY, European Commission

The Clean Energy for all Europeans Package

BIGGEST LEGISLATIVE PACKAGE EVER ON ENERGY PUT FORWARD BY EU

Demonstrating global leadership in renewables

Delivering a fair deal for consumers

Putting energy efficiency first

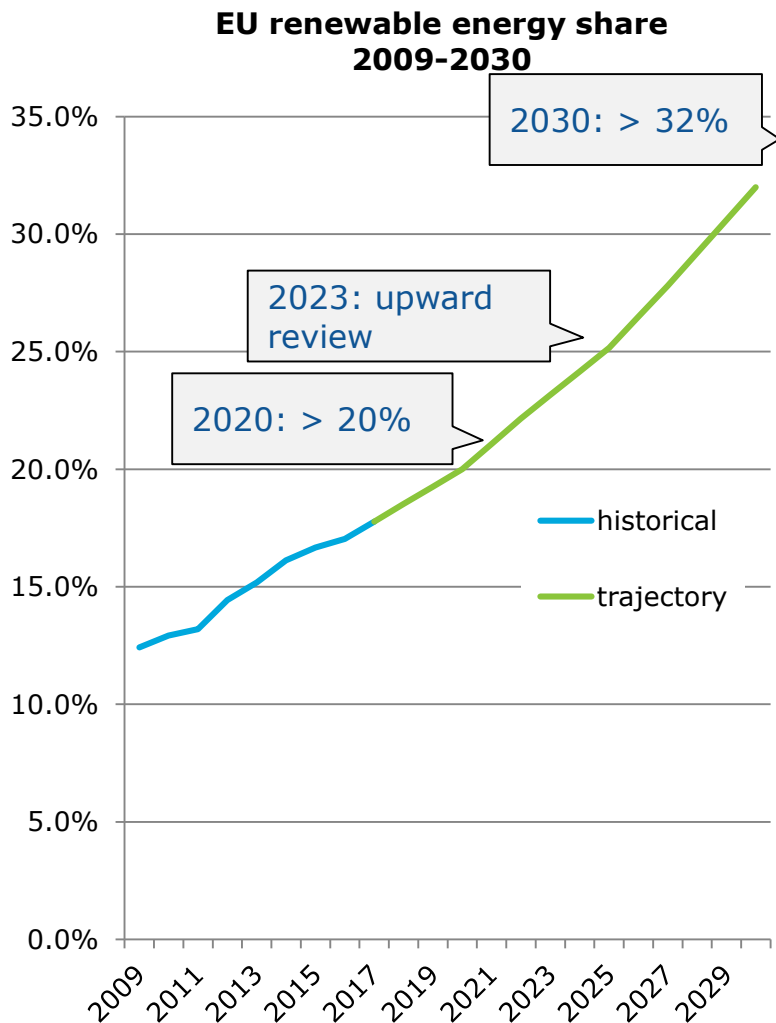

Overview

- 1. Governance** process (including consultation)
- 2. Integrated national energy and climate plans (NECPs)** including **long-term strategies**
- 3. Electricity** in the new Renewables Directive
- 4. To come:* New rules for **electricity market design**

Governance process – How does it work ?

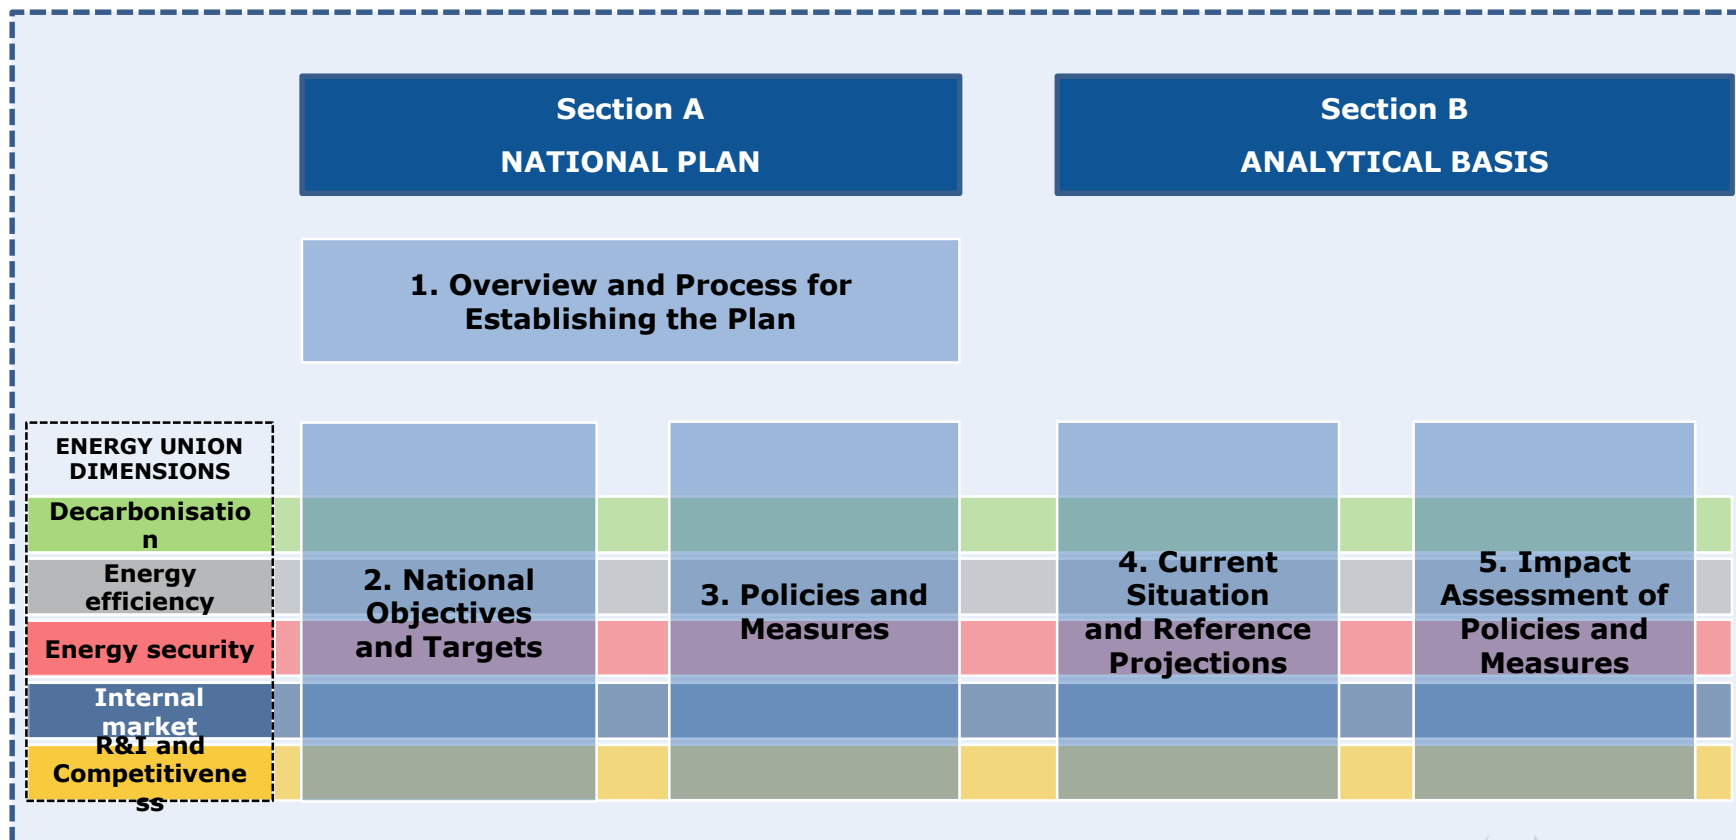

1. Draft national plans by 31 December 2018 with initial public consultation, binding template
2. Commission assessment of the plans, recommendations by 15 April 2019
3. Final national plans by 31 December 2019
4. Union measures in case of an ambition gap
5. Integrated progress report by MS in 2023 and every 2 years thereafter
6. Commission assesses progress reports, recommendations when appropriate
7. One update of the plans (final by 30 June 2024)
8. Commission recommendations in case of delivery gap for 2030
9. Cycle starts again with new draft 10-year-plan by 1 Jan 2028

Governance - a new approach to renewables

- **Binding EU-target of at least 32%** (upward review in 2023)
- Underpinned by **national contributions**
- **Formula** to assess contributions (in case of ambition gap)
- 3 reference points for MS up to 2030
- **Collective responsibility** of target achievement
- **Joint measures**

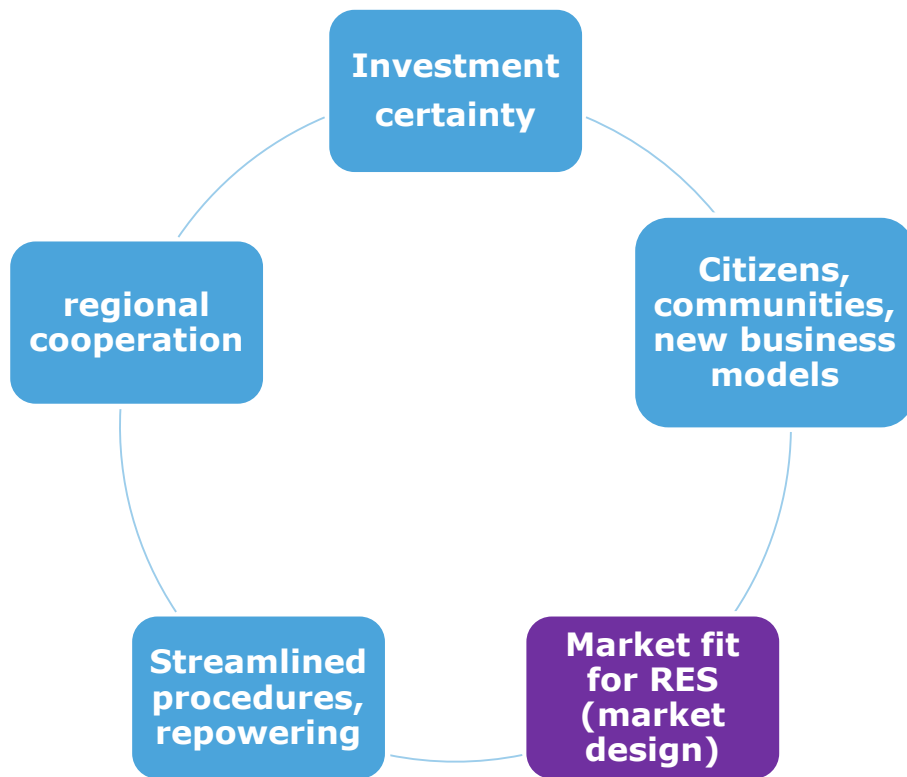

Integrated national energy and climate plans

Governance process – consultation

- Public consultation obligation for final/draft plan and long-term strategy
- **Multilevel Climate and Energy Dialogue**
- MS to consult neighbouring Member States
- MS report about consultation in their plans

What's new for electricity in the Clean Energy Package

Contributing to the EU political priority of **world leadership in renewables**

&

Achieving the at least 32 % EU-level binding renewables target cost-effectively

**THANKS A LOT FOR YOUR
ATTENTION!**
